Comments Dear Julia,

A most heartwarming performance with much expressivity and musical sensitivity. Your opening notes already capture the audience -well done! Lovely warm, resonant vocal color with warm vibrato. Good ensemble with your orchestra, entries well handled, balance is good. You have a good understanding of how to maintain energy and projection and keep phrases alive with intensity in delivery. Good physical presence, facial expression, and movement. Long notes are held with energy and good placement. Overall, most successful. Congratulations!
